What is the global data center server rack market size?

The global data center server rack market size was valued at approximately \$4.8 billion in 2023 and is projected to reach around \$8.5 billion by 2032, growing at a compound annual growth rate (CAGR) of 6.5% during the forecast period.

Why is the server rack market growing in Asia-Pacific?

The U.S. Server Rack Market holds a strong position due to the existing data center infrastructure and demand from hyperscale operators, and the Asia-Pacific region is rapidly developing due to urbanization, digital transformation, 5G adoption, and the capabilities of cloud computing.

Who makes data center server racks?

One of the leading companies in the data center server rack market is Schneider Electric, known for its comprehensive range of data center solutions, including server racks, cooling systems, and power management products.

What drives the server rack market?

The rise in data center colocation services is also a significant driver for the server rack market. Colocation services allow businesses to rent space for their servers and other computing hardware in third-party data centers.

This shift creates a demand for compact, high-performance server racks that can be deployed in a variety of edge locations, including remote offices, retail stores, and industrial sites.

Cabinet Solutions & Industry Insights Download "150kW Industrial Server Racks in ASEAN Ten Countries" PDF

The Server market focuses on large-scale, high-performance data-processing units, such as standalone servers and server racks, predominantly utilized in data centers for intensive computing...

Based on countries, the market is segmented into China, Japan, India, South Korea, Singapore, Malaysia, and Rest of Asia Pacific. The market research report covers the analysis of key stake ...

150kW Industrial Server Racks in ASEAN Ten Countries

The market for data center racks in the Asia-Pacific region is expected to expand quickly due to factors like rising data traffic, improved energy efficiency, and the expanding demand for the development of ...

HPE G2 Enterprise Series Racks offer innovative physical security, structural integrity, cooling and cable management features and a wide choice of power and switching options to match your high-density ...

Asia Pacific Data Center Rack Server Industry Life Cycle Historical Data and Forecast of Asia Pacific Data Center Rack Server Market Revenues & Volume By Form Factor for the Period 2021 - 2031

State-of-the-art server racks are not only being designed with more sophisticated airflow management systems, more energy-efficient cooling systems, and more modularity for easy ...

OCP's proposed "1 Megawatt racks" would move power supplies out of server racks into separate units. Eventually, power generation could move entirely outside computing
