Learn more about the detailed model, parameter configuration, compatibility, environment, and product description of the LUNA2000-97/129/161/200KWH.

The Velonix 200 kWh / 120 kW system is an integrated energy storage + DC fast charging solution that combines LFP battery storage, PCS, EMS, and DC charging modules into a single cabinet platform.

This fully integrated pre-configured solution is suitable for various applications including photovoltaic energy systems, industrial and commercial facilities, power grids, power plants, charging stations, ...

It is a high-tech product with a fully enclosed integrated structure and IP54 protection level, which can meet the demand for 100kW/200kWh energy storage configuration, and is widely used in optical ...

OCP and 4G Communication: Equipped with OCP protocol and 4G connectivity, the device supports remote monitoring and management, ensuring real-time, efficient operation.

The BSLBATT 200kWh Battery Cabinet utilizes a design that separates the battery pack from the electrical unit, increasing the safety of the cabinet for energy storage batteries.

Our Station Charger is an all-in-one DC fast-charging solution, seamlessly integrating the modular cabinet structure of the Kempower Power Unit with our user-friendly Satellite interface.

Safe & Reliable (EnerCube100kW/215kWh Outdoor Cabinet Photovoltaic Power Generation System)  
Standardized cabinets for zoned security and isolation of energy storage systems.

JNTech all-in-one solar storage system integrates an inverter and energy storage cabinet into a single unit, providing a compact and efficient solution for solar and microgrid systems.

## 200kWh Communication Cabinet for Charging Stations

This multifunctional cabinet provides 6 different operational modes. It will easily integrate into your power conversion system or serve as a foundation on a newly designed one.
