-----

The Resident Country Director of the Millennium Challenge Corporation, Rinor Gjonbalaj, highlighted that the energy storage system will be the first of its kind in the region. According to him, ...

Installing a 340 MWh battery storage facility in Kosovo will positively impact the country's energy sector by reducing the country's dependence on imported electricity, including increased...

Lithium battery combiner box systems are centralized units that manage multiple battery modules in energy storage setups. They optimize performance by balancing charge/discharge cycles, monitoring ...

Kosovo has taken a significant step towards a sustainable energy future by granting its first-ever licenses for battery energy storage systems.

The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis.

Meet Kosovo's latest player in the energy storage game - a manufacturer that's turning lithium-ion batteries into something resembling a Swiss Army knife for power solutions.

Kosovo intends to build the first battery energy storage system (BESS) in the region, which will have 170 MW of capacity and come online in 2028, a senior government policy advisor told Montel on Thursday.

Kosovo plans to channel part of the U.S. grant into small-scale renewables --think solar farms powering rural schools. And with coal's days numbered, the country could become the ...

This policy shift has already attracted two international battery makers to set up assembly plants in Kosovo. It's not quite the 'energy storage revolution' yet, but you can definitely hear the drums ...
