BESS e-Container: large high quality battery energy storage systems, scalable to up to 60 MWh of modular capacity.

Slovenia-based NGEN put Austria's largest battery energy storage system into operation. It installed it in record time - just seven months.

We are proud to announce the successful installation of a containerized lithium battery energy storage system in Austria, shipped directly from our manufacturing base.

TESVOLT produces battery storage systems based on lithium batteries that can be connected to all renewable energies: sun, wind, water, biogas and thermal power.

Das erste Lithium-Container-Energiespeichersystem von Energy3000 in Österreich mit einer Kapazität von 3,4MWh wurde in ...

The BESS will be built in Lower Austria and will be operated together with a TESS. This combination is called a hybrid energy storage system (HESS). The HESS will primarily participate in ...

The battery container offers numerous advantages that make it an ideal solution for energy storage. Thanks to the plug & play design, installation is quick and uncomplicated, saving time and effort.

HiTHIUM helps C& I users optimize energy management, reduce costs, and capture energy arbitrage opportunities. The system also delivers reliable backup power and supports seamless renewable ...

Battery storage system provider NGEN has completed a 10.3MW/20.6MWh standalone project in Austria, the largest in the country, it claimed.

Austria container lithium battery energy storage power station manufacturer

In Austria's Salzburg region, a specialized assembly factory is driving innovation in energy storage solutions, catering to industries like renewable energy, transportation, and smart grid management.

Das erste Lithium-Container-Energiespeichersystem von Energy3000 in Österreich mit einer Kapazität von 3,4MWh wurde in Betrieb genommen.
