Que la Ley 1715 de 2014, en su artículo 19 Desarrollo de la energía solar, numeral 4. establece: "El Gobierno Nacional considerará la viabilidad de desarrollar la energía solar como fuente de ...

The National Energy Plan (PEN) 2022-2052 defines Colombia's energy policy and includes five different scenarios that consider solar and wind energy, both for grid-connected and off-grid areas.

On average, installing a home solar system in Colombia costs around COP 19 million or more (approximately US\$5,054 or more), depending on system size and equipment quality.

The potential of solar energy at a global level in Colombia is 4.5 kW h/m<sup>2</sup>/day and the area with an optimal solar resource is the Península de la Guajira, with 6 kW h/m<sup>2</sup>/day of radiation, ...

Según el Ministerio de Minas y Energía, el programa Colombia Solar contribuye a la sostenibilidad del Fondo de Solidaridad para Subsidios y Redistribución de Ingresos, pues reduce la presión fiscal que ...

Within its legislative powers, this body determines the different factors of mandatory compliance that the generators of photovoltaic and wind plants must have to participate in the national energy system.

The Ministry of Environment has proposed the creation of a new environmental licensing procedure called the Solar Environmental License (LASolar), to be processed before ANLA for solar ...

Colombia has approved a new permitting scheme for solar projects of 10 MW to 100 MW, aiming to cut approval times by up to 70% while tightening social and environmental requirements.

The measure, articulated through the CONPES Document 4158, places the installation of solar panels at the center of a public policy that redirects spending on subsidies toward clean energy ...

## Colombia s solar system requirements

The Colombian government has issued Decree 0972 to encourage solar energy adoption, allowing electricity consumers to install photovoltaic generation systems of up to 5 kW.
