Are sodium ion batteries sustainable?

A study has shown that a sodium-ion battery scores well over a lithium-ion battery and a solid-state battery in terms of price, safety, and sustainability. Except for energy density and charging time, sodium-ion batteries have stood out as the most efficient and sustainable batteries for electric mobility.

Who are the top 8 sodium ion battery companies in 2025?

We also help our customers obtain the safety and compliance certifications they need for their target markets. The Top 8 sodium ion battery companies in 2025--CATL, Faradion, Natron, HiNa, Altris, Tiamat, KPIT Technologies, and BYD--are driving commercialization of this next-generation battery technology.

Where are sodium ion batteries made?

According to Blackridge Research & Consulting's Global Sodium-ion Battery Market report, China is currently leading the development and planned manufacturing of sodium-ion batteries, with most of the announced manufacturing capacity set to be located there. Notable companies involved include CATL, BYD, and Hina.

How big is the sodium-ion battery market?

According to projections by the leading global market research firm MarketsandMarkets, the global sodium-ion battery market is expected to grow from USD 0.67 billion in 2025 to USD 2.01 billion by 2030, at a CAGR of 24.7%. Sodium-ion batteries are becoming a cost-effective and sustainable choice over lithium-ion batteries.

This report lists the top Sodium-ion Battery companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive ...

Product Details: Sodium-ion batteries are innovative energy storage solutions that utilize sodium ions as charge carriers, offering a sustainable alternative to lithium-ion batteries.

Comprehensive analysis of global sodium-ion battery producers: \$30B market data, 160+ Wh/kg technologies, gigafactory maps, and procurement strategies for commercial buyers.

Discover top sodium-ion battery manufacturers of 2025 driving clean, affordable energy storage for EVs, grid

systems, and industrial applications worldwide

In this article, we will explain the top 10 sodium battery manufacturers in the world, such as CATL, BYD, KPIT Technologies, and many more.

Why Sodium-Ion Batteries Lead in 2026 Sodium-ion batteries excel in cold temperatures, maintaining significantly higher capacity than Lithium-ion batteries in freezing conditions. Their lower ...

Check out the global top 7 sodium-ion battery manufacturers and sodium-ion battery companies with the best sodium-ion batteries based on Na-ion technology.

Top 10 Global Sodium-ion Battery Manufacturers in 2026 ranked by technology, production capacity, and market influence for energy storage solutions.

This report lists the top Sodium-ion Battery companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be ...

Explore the top 8 sodium battery manufacturers and sodium-ion battery companies to find advanced sodium-ion battery technology in the market.

Explore cutting-edge energy storage with the Top Sodium Ion Battery Companies. Unleash sustainable power solutions with groundbreaking technology.
