What is the global flow battery market size?

The global flow battery market size was valued at USD 328.1 million in 2022. This market is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030, primarily driven by the rising demand for energy storage systems globally.

What is the expected CAGR of the flow battery market?

The global flow battery market size was valued at USD 328.1 million in 2022 and is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030. The rising demand for energy storage systems globally is the primary factor for market growth.

What is a flow battery?

A flow battery is a rechargeable energy storage system where an electrolyte flows through one or multiple electrochemical cells originating from one or more reservoirs or tanks. These batteries are used exclusively in stationary markets and are typically aqueous-based.

Which region dominated the flow battery market in 2022?

Asia Pacific dominated the market and accounted for a market share of 39.1% in 2022. This can be attributed to the high adoption of flow batteries in major economies such as China, Australia, and Japan. Flow batteries are effective for EV charging stations as they are compact, highly scalable, and environmentally friendly.

Avalon developed the first generation of vanadium flow batteries in 2016 and has deployed over 160 flow battery modules from its third-generation technology to projects in North ...

Brussels-based Flow Batteries Europe (FBE) puts the highlight on Asia-Pacific, where it said progressive energy policies are boosting the introduction of flow battery chemistries. Flow ...

The Asia Pacific stationary flow battery storage market size crossed USD 3.7 billion in 2024 and is expected to grow at a CAGR of 33.9% from 2025 to 2034, driven by the rapid expansion of solar and ...

East Asia Flow Battery

Singapore's government and Energy Market Authority consider expansion of Southeast Asia's biggest battery storage plant, grid enhancements.

Asia Pacific flow battery market held the largest share of 48.1% of the global market in 2025. The flow battery market in the China is expected to grow significantly over the forecast period. By type, the ...

The utility sector leads in operational flow battery projects globally. Asia Pacific to Lead the Growth: Asia Pacific is expected to exhibit the highest CAGR during the forecast period.

The report provides a comprehensive analysis of the Asia Pacific energy storage and flow battery policy landscape, examining key countries like China, Japan, Australia, and South ...

Learn how the Asia-Pacific flow battery market boosts sustainable energy storage & clean energy, particularly in China, India, and Japan.

The Asia-Pacific flow battery market size is valued at \$263.29 million as of 2025 and is expected to reach \$969.79 million by 2032, progressing with a CAGR of 20.47% during the forecast ...
