-----

Can government grants help with solar battery storage?

To combat this, various schemes can help people with grants to invest in greener energy solutions, such as solar battery storage. As with many Government schemes, Government grants for battery storage do change and have specific criteria for eligibility.

Can I get a government grant for battery storage?

As with many Government schemes, Government grants for battery storage do change and have specific criteria for eligibility. It's therefore wise to always check what is available when looking into solar panels and battery storage, as new government schemes may have been launched, and older schemes may have finished.

What is the government doing about solar energy?

It includes subsidies for solar panel and solar battery storage projects. The government has also included 20% tax cuts for solar installations, air and water source heat pumps, diverters retrofitted to ESMs such as solar panel or wind turbine, and retrofitted batteries.

Should you buy battery storage through a grant scheme?

Suppose you are considering battery storage through a grant scheme, thoroughly research. However, remember that if you buy your battery storage before the 31st of March 2027, you will enjoy the 0% VAT on this. This represents a saving of 20% of the previous price for a battery.
