Power from coal fell about 1% as growth in cleaner energy sources covered all the increase in electricity demand last year. China added 315 gigawatts of solar capacity and 119 gigawatts of ...

These pages should help utilities, financiers, manufacturers, and anyone interested in renewable-energy options to find information on the growing number of concentrating solar power projects around the ...

Situated in Do#241;a Ana County, this ambitious project not only signifies a commitment to clean energy but also highlights the US solar industry's ability to deliver efficient and timely solutions ...

China's solar and onshore wind capacity reaches new heights, while offshore wind shows promise China is advancing a nearly 1.3 terawatt (TW) pipeline of utility-scale solar and wind capacity, leading the ...

Developers added 12 gigawatts (GW) of new utility-scale solar electric generating capacity in the United States during the first half of 2025, and they plan to add another 21 GW in the ...

Zambia inaugurated a 20 MW solar photovoltaic plant in Lusaka to diversify its power mix amid climate-driven hydropower constraints. Kiyona Energy, a ZESCO subsidiary, developed the ...

Tesla's Megapack is officially making its mark on China's energy landscape. The groundbreaking RMB 4 billion grid-scale storage project in Shanghai's Lin-gang Special Area, ...

Covering about 200,000 square meters, the new energy storage project attracts a total investment of 1.45 billion yuan (\$200 million). Up to 10,000 Megapack units are scheduled to be ...

National Energy Solar PV Park is a ground-mounted solar project. The project generates 47,700MWh electricity and supplies enough clean energy to power 10,000 households, offsetting 23,000t of ...

Hyderabad: Hyderabad Metro Rail on Saturday commissioned its second solar power plant with a capacity of

National New Energy Solar Power Station

1.2 MW at its Uppal depot. Officials said that with the new facility, the share of ...
