What does Nordic Solar do?

At Nordic Solar, we have made it our business to add more renewable energy to the energy system. We develop, construct and operate utility-scale solar parks and BESS in European growth markets. We also divest assets to make new investments in solar energy solutions. Dive into our business model and get insight on our strategic focus.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

Why should you choose Nordic systems engineering?

At Nordic Systems Engineering, we work to fulfill all your technological needs. With our diverse team of individuals, we give you an environment where you may worry about what you're making rather than how when it comes to the development of your products. In an ever-advancing world, data is the most critical part of any industry or business unit.

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

At Nordic Systems Engineering, we work to fulfill all the technological needs of our clients.

Discover the power of solar energy with Nordic Solar. A cost-effective and sustainable solution that contributes to a cleaner and brighter future. Explore solar advantages, the rich history and evolution ...

Join us as we accelerate the energy transition in Europe, covering the full solar value chain with over 100 dedicated employees. Explore the potential of solar energy with Nordic Solar.

Nordic Systems Engineering AB provides turnkey, technological solutions to its clients. We also provide IT

Nordic Solar Systems Engineering

Services, Custom software development and Business Consultancy, thereby providing cost ...

With an increasing demand in controls and automation systems, we're at the leading end of companies providing custom made solutions for our clients. As both physical and digital world expand, it is our ...

Ensure you have a clear understanding of these terms and conditions. Unlocking Nordic solar potential with Glint Solar: Grid complexities simplified In the ever-evolving Nordic clean energy ...

At Nordic Solar, we specialise in the development, construction and operation of utility-scale solar parks and BESS across Europe through collective investment in advancing the energy transition towards a ...

We develop, construct, and operate utility-scale solar parks and BESS across Europe on our mission to make everyone benefit from solar energy. As we pursue this mission, our vision is to emerge as one ...

We develop, construct, and operate utility-scale solar parks across Europe on our mission to make everyone benefit from solar energy. As we pursue this mission, our vision is to emerge as one of the ...

Formation of a team of experts in solar energy, wind power, hydropower plants, and hydrogen technologies. Q3 Launch of the first solar panel installation project in Norway.
