Constructed from galvanized or stainless steel and rated up to IP65, it ensures complete resistance to dust, rain, and corrosion while maintaining optimal operating conditions for all internal components.

Perfect for industrial equipment, electrical cabinets, and outdoor installations, our enclosures offer customizable solutions for renewable energy, telecommunications, and more.

The system achieves an IP55 rating, meeting stringent outdoor environmental requirements and ensuring robust performance in various conditions. Additionally, C5 anti-corrosion certification ...

IP65 / IP66 protection ensures reliable operation in tough environments. Supports 110V ~ 480V input, 1A ~ several thousand amp outputs (customizable). Internal configuration, I/O setting, cabinet size can ...

This IP65-rated outdoor power supply cabinet is engineered to provide reliable power management and protection in harsh environments. Built with high-strength galvanized or stainless steel, the cabinet ...

It supports battery capacity, discharge time prediction, peak shaving and dynamic transformer capacity expansion, offering smart commercial and industrial energy storage solutions.

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

HJ-G65-261L and HJ-G130-261L are two 261KWh outdoor cabinet energy storage systems with liquid-cooling technology, designed for outdoor energy storage needs, suitable for a variety of application ...

Featuring an IP55/IP65-rated enclosure, it offers excellent resistance to water, dust, and corrosion, making it ideal for solar energy, wind-solar hybrid, off-grid, and industrial backup power systems.
