Who are the top 20 global photovoltaic module manufacturers?

During the conference, PVBL announced its annual ranking of the top 20 global photovoltaic module manufacturers. In 2024, the global solar module market continued to see the strongest players thrive, with the top four enterprises -- JinkoSolar, LONGi, Trina Solar and JA Solar -- collectively shipping over 320GW and dominating the industry.

Who is the best solar panel manufacturer?

The top global solar panel manufacturers, based on how many they ship, include JinkoSolar, JA Solar, Trina Solar, and LONGi. However, the best manufacturer for your solar project will depend more on whether their products suit your budget, needs, and lifestyle.

Which country produces the most solar panels in the world?

The Asian industry continues to dominate the global ranking of solar panel manufacturers. Chinese companies hold eight of the top ten spots, including the entire podium. Who are the top 10 photovoltaic module producers in the world?

Who are the top solar companies in the US?

DMEGC (Hengdian Dongci) and others were close behind. First Solar remained the sole US entrant in the top tier, while Aiko debuted thanks to its mass-produced BC cell modules and Huasun ascended rapidly by commercialising HJT technology. As the industry undergoes deep adjustment, obsolete capacity is being phased out quickly.

The renewable energy directive is the legal framework for the development of renewable energy across all sectors of the EU economy, and supports cooperation across EU countries.

This Commission department is responsible for the EU's energy policy: secure, sustainable, and competitively priced energy for Europe.

Based on the 2025 market shipment forecast and technology analysis, this report provides an in-depth overview of the world's top 10 photovoltaic module manufacturers to help ...

Photovoltaic panel manufacturers rankings listed

The European Solar Charter, signed on 15 April 2024, sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.

The charter sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.

The targets have evolved consistently since first established to help the EU reach its ambitious energy and climate goals.

What are the world's largest solar panel manufacturers? The National Renewable Energy Laboratory's most recent Solar Industry Update Report, released in December 2024, revealed the ...

Solar energy adoption has skyrocketed by 48% globally since 2020, driven by government incentives and falling production costs. Whether you're a homeowner, business operator, or renewable energy ...

Top 10 Solar Panel Manufacturers by Global Shipments (Q1-Q3 2025) During the first three quarters of 2025, the photovoltaic industry has reached a new balance among the leading ...

Solar energy is one of the world's most abundant and easily accessible sources of renewable power. But how well do you know it? Several distinct technologies harness the sun's ...

Global photovoltaic industry, 2024 ranking Who are the top 10 photovoltaic module producers in the world? Each year, Wood Mackenzie answers this question with an analysis of the ...

The world's top 10 solar photovoltaic (PV) module manufacturers shipped a record 500 gigawatts (GW) of modules in 2024, nearly doubling the previous year's volume, according to Wood ...

Significant factory footprints also exist in Southeast Asia and the USA as solar module manufacturers and PV manufacturers diversify. What are the future trends in solar panel ...

PVTIME - On 10 June 2025, the PVBL 2025 Global Top 100 Solar Brands rankings and the PVBL 2025 Global Solar Brand Influence Report were unveiled at the 10th Century Photovoltaic Conference in ...

A range of solar technologies are available to harness the sun's energy in different ways. Solar photovoltaic (PV) panels, comprised of individual solar cells, convert sunlight into electricity. ...
