Just one solar project has been approved on federal lands since Trump took office in January, and none have been permitted since July when Interior Secretary Doug Burgum ordered ...

The U.S. has canceled the Esmeralda Seven solar project in Nevada, which would have been one of the world's largest photovoltaic power plants. The project comprised seven solar farms ...

One of the most ambitious solar projects in history is quietly heading for shutdown after just a decade of operation. The Ivanpah Solar Power Facility in California's Mojave Desert was once...

Developers had planned to use 118,000 acres of federal land in Nevada's desert as the home for solar arrays and batteries to store the sun's energy. Last week, the Interior Department's ...

Since taking office, the Trump Administration has paused permits on all new wind and solar projects on public land, both onshore and offshore. New wind and solar power installations, and...

The Trump administration has cancelled Esmeralda 7, a large-scale solar project in southern Nevada -- a move critics say undermines the nation's clean energy transition.

They predicted the Esmeralda 7 project -- by far the largest solar project that had moved through the permitting process under former President Joe Biden's Interior Department -- won't be ...

More than \$14 billion in clean energy investments in the U.S. have been canceled or delayed this year, according to an analysis released Thursday, as President Donald Trump's pending megabill has ...

President Donald Trump on Wednesday said his administration will not approve solar or wind power projects, even as electricity demand is outpacing the supply in some parts of the U.S.

Dozens of wind and solar projects that sit on both public and private lands nationwide are now stalled while

Photovoltaic panel project halted

waiting for what were once ordinary approvals from the federal government, Mr...
