Is there a reason for your strange behavior? There is a reason why they don't want to come. I can't give you the report for the simple reason that it isn't yet finished. She explained her reasons for deciding ...

The wind actions on roof-mounted solar panels may increase the total wind loads on the structure of the building to which they are mounted. In some cases, the higher structural wind actions ...

reason (third-person singular simple present reasons, present participle reasoning, simple past and past participle reasoned) (intransitive) To deduce or come to a conclusion by being rational.

This article explains how and why roof-mounted solar arrays could be blown off, what factors influence wind uplift, and practical steps homeowners can take to minimize risk.

1. To determine or conclude by logical thinking: The doctor reasoned that the patient had a virus. 2. To persuade or dissuade (someone) with reasons: "You boast ... of having reasoned him out of his ...

Wind can pose significant challenges to solar panel installations, particularly in areas prone to extreme weather conditions. The force of strong winds can exert pressure on the solar ...

This article lists the most common reasons why people pay too much tax. Tom's problem was that he lacked confidence; Ed failed for precisely the opposite reason.

The differences in wind load on photovoltaic panels under different layout structures are analyzed and explained, including analysis of velocity and pressure distribution, turbulence field, and ...

Explanatory reasons are explanations of why things happened. For example, the reason the patient is in pain is that her nerves are sending signals from her tissues to her brain. A reason, in ...

Reasons for photovoltaic panels to avoid being blown by the wind

Solar panels can be blown off the roof under the right combination of extreme winds, poor installation, and degraded materials, but properly designed, code-compliant systems are highly ...

It is important to keep solar panels from blowing off roof in high winds. Solar panels can be secured with straps or brackets to keep them from sliding off roof racks. In the most extreme cases, ...

A common concern, however, is whether solar panels can be blown off a roof during strong winds or storms. This article explores the durability of solar panel installations, the factors ...

If wind pressure and suction exceed the weight force, modules can slide, tip over, or even detach completely from the roof during storms. This happens especially when ballasting plans are ...

There are a number of reasons for this. The last reason is perhaps the most common. However, this was not always the case, for several reasons. For this reason, the use of an antagonist is unnecessary. A ...

think, cogitate, reflect, reason, speculate, deliberate mean to use one's powers of conception, judgment, or inference. think is general and may apply to any mental activity, but used alone often suggests ...
