Can a solar energy park be built in Riga?

The Freeport of Riga Authority and the Lithuanian company SNG Solar have signed an agreement on the lease of land in the Port of Riga in the Spilve Meadows area for the development of a solar energy park.

What's going on in Riga?

This deal marks the beginning of a major solar energy project at the port of Riga, which will include the installation of solar panels, the production and storage of renewable electricity, and the development of hydrogen and alternative fuel technologies.

How much green energy will the Freeport of Riga generate?

According to the auction result, the annual rent specified in the contract amounts to EUR233,251 (\$258,714 million) and the amount of electricity to be transferred to the Freeport of Riga Authority will be 2.5 per cent of the total green energy produced, which will be further used for the maintenance of the port infrastructure and operation.

How much will SNG solar invest in Freeport of Riga?

SNG Solar won the auction organised by the Freeport of Riga Authority for the land lease right and at the beginning of May the Freeport of Riga Board decided to enter into an agreement with the Lithuanian company. The total investment in the park is expected to be between EUR60 (\$66.58 million) and EUR80 million (\$88.76 million).

The Freeport of Riga Authority and the Lithuanian company SNG Solar have signed an agreement on the lease of land in the Port of Riga.

Over the next five years, SNG Solar plans to build a solar power plant with a capacity of 100 MW on 1.77 million square meters, generating approximately 100,000 MWh of green electricity annually. The ...

In May 2023, Latvian developer PurpleGreen Energy B announced plans for a 400 MW solar power plant near the Russian border. According to the International Renewable Energy Agency, Latvia had ...

Hydroelectric power is the main source of renewable electricity in Latvia, followed by solar, wind and biomass cogeneration plants. In 2024, solar power in Latvia grew over 3.1 times to 6.7% of total ...

## Riga solar container outdoor power

Riga 3-5 kWh solar container outdoor power EK Are solar energy containers a beacon of off-grid power excellence? Among the innovative solutions paving the way forward, solar energy containers stand out ...

The BCT solar panel park is the second green energy production plant that has started its operation in the territory of the Port of Riga. The company SIA "Kronospan Riga" already operates a solar ...

Does green energy smart charge have solar container Our containers are equipped with high-efficiency solar panels designed for maximum power generation in compact spaces. These panels are mounted directly onto ...

This deal marks the beginning of a major solar energy project at the port of Riga, which will include the installation of solar panels, the production and storage of renewable electricity, and the development of ...

According to the agreement, SNG Solar will build a solar power plant with a nominal capacity of 100 megawatts (MW) on an area of 177.2 hectares (ha) on the Spilve Meadows site within five years, ...

Port of Riga opens new solar panel park September 7, 2023 Baltic Container Terminal (BCT), which operates in the port of Riga, has invested more than EUR1 million (US\$1.1 million) in the construction of a ...
