Senegal has officially inaugurated the "Walo Storage" plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...

In July 2025, state utility SENELEC and Chinese group CNTIC signed two contracts for 50 MW solar plants paired with 90 MWh of storage each, with commissioning planned between 2026 ...

Independent power producer Africa REN has commissioned a solar-plus-storage project in Senegal. The Walo Storage project is the first solar installation in West Africa to include energy ...

The on-time commissioning of Walo Storage demonstrates our ability to support Senegal's energy transition using cutting-edge technology. It is also a key milestone in our ambition to build ...

our energy delivery, Walo Storage marks a major technological breakthrough for the country. The installation facilitates the increasing integration of solar energy while avoiding the emission

Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal.

Energy Resources Senegal (ERS), through its subsidiary Teranga Niakhar Storage (TNS), has successfully secured financing for the Niakhar Solar + Storage project, a 30 MW ...

Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid-connected solar-plus-battery installation of its ...

With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power

Senegal solar Energy Storage Network

with lithium-ion battery storage, the first of its kind in West Africa, as the country ...
