What can a 5kw solar generator run?

A 5kW solar generator is also capable of running high consumption appliances and systems such as HVAC systems, water heaters, induction cookers, electric ovens and garage heaters. Some of these generators can be converted into 220-240V systems to run things like air conditioners, dryers and well pumps. What's In This Guide?

What should I consider when buying a 5kw solar generator?

Here are the top five things to consider when shopping for a 5kW solar generator. If you want a minimum 5kW solar generator, make sure the one you pick produces at least 5000W of continuous AC power. Double check that it is continuous output, not surge or peak output.

Can a 5kw solar generator run multiple appliances?

With 5kW of output, you can not only run any household appliance, you can power multiple appliances at the same time. This makes 5kW solar generators excellent for home backup or off-grid power. You can even integrate the solar generator into your home circuit such that it powers outlets and appliances directly.
