What is a photovoltaic ranking?

Widely recognised as the premier barometer of the global photovoltaic (PV) industry, the rankings provide a definitive benchmark for evaluating corporate influence and brand value.

How big is the global solar photovoltaic (PV) market?

The Global Solar Photovoltaic (PV) Market was valued at USD 219.3 Billion in 2024 and is projected to reach USD 419.6 Billion by 2030, growing at a Compound Annual Growth Rate (CAGR) of 11.4% during the forecast period (2024-2030).

Which country produces the most solar panels in the world?

The Asian industry continues to dominate the global ranking of solar panel manufacturers. Chinese companies hold eight of the top ten spots, including the entire podium. Who are the top 10 photovoltaic module producers in the world?

What is the market share of solar photovoltaics in 2024?

By technology, monocrystalline-Si commanded 87% of the solar photovoltaic market share in 2024; tandem/perovskite cells are projected to grow at a 31% CAGR to 2030. By end-user, utility-scale systems held 63% revenue share in 2024, while residential installations are advancing at a 22% CAGR through 2030.

1. Introduction 1.1. Background. With the intensification of energy shortage and environmental pollution, renewable energy has attracted worldwide attention [1 - 4]. The solar photovoltaic (PV) power is ...

Find up-to-date statistics and facts on the global solar photovoltaic industry.

By geography, Asia-Pacific commanded 64.3% of the Solar PV market share in 2025, whereas the Middle East and Africa region is poised for a 21.5% CAGR through 2031.

The photovoltaics market refers to the industry focused on the generation of electricity using solar cells that convert sunlight into energy through the photovoltaic effect.

Widely recognised as the premier barometer of the global photovoltaic (PV) industry, the rankings provide a

Solar Photovoltaic Power Generation Industry Ranking

definitive benchmark for evaluating corporate influence and brand value.

In this blog, we profile the Top 10 Companies in the Solar Photovoltaic PVs Industry --a combination of established giants, innovative module manufacturers, and integrated energy solution ...

In 2022, their renewables segment generated \$4.38 billion in sales, the highest revenue since the launch of the solar business in 2011. They made an operating profit of about \$250 million ...

Each year, Wood Mackenzie answers this question with an analysis of the 40 largest solar panel brands across 10 countries. These companies alone account for 62% of global ...

Wood Mackenzie's score-based ranking assessed more than 40 leading module manufacturers across 10 countries. These companies accounted for 62% of global production ...

Across all regions, developing a skilled workforce and setting ambitious solar and storage targets are essential tasks. In these times of political uncertainty, low-cost solar power could turn into ...
