EETC launched a tender for a 500 MW solar plant in West of Nile. The project will follow a build-own-operate model under an independent power scheme. Egypt targets 42% renewables by ...

SunPower was founded on April 24, 1985, by Richard Swanson, who was a Stanford University professor focused on electrical engineering. Swanson studied solar power efficiency in the Stanford Electronics Laboratory with funding from research grants. After breaking a record for solar power efficiency in lab conditions, he took a sabbatical to start SunPower and commercialize the technology. Initially, the company was called Eos and was funded with \$2,000 in savings between Swanson and his friend Ric...

We Are Mainly Engaged In R& D, Production And Sales Of PV Modules And Lithium Batteries, As Well As Providing Customers With Solutions For Solar Energy Projects. We Also Provide Professional ...
