Why does Somalia need a cold & freezing storage facility?

The agricultural sector suffers from up to 40% post-harvest losses, affecting productivity and contributing to high food prices. SOMCOOL is revolutionizing the storage and preservation of perishable goods in Somalia with our innovative off-grid, solar-powered cold and freezing storage facilities.

Why is energy a problem in Somalia?

Somalia faces significant food insecurity, further worsened by the loss of perishable goods. Over 95% of energy installations in Somalia use hydrocarbons, hindering the adoption of sustainable, renewable cold storage solutions. Energy can cost as much as \$1/Kwh

Why is energy so expensive in Somalia?

Over 95% of energy installations in Somalia use hydrocarbons, hindering the adoption of sustainable, renewable cold storage solutions. Energy can cost as much as \$1/Kwh The agricultural sector suffers from up to 40% post-harvest losses, affecting productivity and contributing to high food prices.

How does cold storage affect the food supply chain in Somalia?

In Somalia, a nation facing harsh climates and food scarcity, the nearly non-existent cold storage chain severely affects vital contributors to the food supply chain, including smallholder farmers, fishermen, and wholesalers.

With advanced liquid cooling technology, our systems effectively manage battery temperatures, ensuring stable performance under high loads and enhancing efficiency and lifespan.

Liquid-cooled containerized energy storage is a type of energy storage system typically used to store electrical energy or other forms of energy for backup power or grid management needs.

EFFICIENT AND DURABLE Industry leading LFP cell technology up to 10,000 cycles with high thermal stability Liquid cooling capable for better efficiency and extended battery life cycle ...

Maximize power reliability & savings with our 125KW/261KWH Liquid-Cooled Battery Cabinet. Featuring superior cooling efficiency for extended 10-year lifespan, it enables critical equipment UPS protection ...

Somalia Intelligent Liquid Cooling solar container battery Cabinet

The Battery Cabinet is an energy storage battery system that integrates the latest liquid-cooling technology solutions, featuring easy installation and easy ...

SOMCOOL is revolutionizing the storage and preservation of perishable goods in Somalia with our innovative off-grid, solar-powered cold and freezing storage facilities.

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan lithium iron phosphate ...

Intelligent anti-leakage detection,enhancing system safety. Intelligent liquid cooling ensures higher efficiency and longer battery cycle life. Modular design with parallel support for easy ...

Liquid Cooled Energy Storage Cabinet integrates a battery system, advanced liquid cooling technology, and intelligent management to achieve precise temperature control.

Somalia"s Ministry of Energy and Water Resources has launched a significant tender for a large-scale hybrid solar and battery energy storage project in northeastern Somalia.
