We will explain why we see wind turbines stopped even though there is enough wind to generate electricity.

The giant blades of a 34-metre wind turbine broke off and flew through the air during storms. Dramatic footage of the incident also revealed large parts of the fibreglass structure were left...

A blade broke off of a wind turbine and landed in a cranberry bog in Plymouth, Massachusetts on Friday. It happened in the area of Head of the Bay Road near the Bourne town ...

A man in Germany recorded a video showing the moment a wind turbine snapped and collapsed to the ground a week after a strong thunderstorm moved through the region.

Proposed wind turbines just three miles off the coast of Ocean City have been the source of several legal battles in federal courts. OCEAN CITY, Md. -- A federal judge has dismissed US ...

This is the astonishing moment Storm Gerrit tore apart a wind turbine as 85mph gales barreled through parts of Britain.

Why wind turbines are switched off When the winds are too strong, Britain's electricity grid is filled with more clean energy than it needs.

The giant blades of a 34-metre wind turbine broke off and flew through the air during storms.

A 10-year-old Vestas turbine near #197;rhuis, Denmark, spins out of control during a storm on Feb. 22, 2008. It effectively explodes when one of the blades hits the tower.

No one appears to have been hurt in the wind turbine incident. They can cost up to several million pounds each. It came as Storm Gerrit blew through Britain on Wednesday and ...
