What is APS power's battery energy storage system?

APS Power's Battery Energy Storage Systems (BESS) provide a cutting-edge solution for storing and managing energy efficiently. Designed for various applications, from off-grid power to backup solutions, our BESS helps optimise energy use, reduce costs, and improve system reliability.

Why should you choose a battery energy storage system?

Our monitoring software allows for remote system configuration and analysis to both increase power security and improve systems management. Our battery energy storage systems are perfect for energy shifting and peak lopping, making them an excellent choice for any renewable energy project. Ready to Power Your Life?

What is a containerised battery unit?

Containerised Battery Units: Built into secure, weather-resistant containers, these BESS systems are engineered for high-capacity, industrial-scale power storage. Perfect for construction, mining, or backup for critical infrastructure, containerised solutions are scalable and robust, suitable for long-term and remote applications.

What storage solutions are available for battery energy batteries?

Our space efficient storage solutions for batteries are designed to accommodate vertically or horizontally installed Battery Energy batteries. Horizontal rack configurations offer a minimum 600mm x 600mm footprint of and can cater for up to eight fully adjustable shelves.

Overview The DPA Energy ESSential Pre-Wired Cabinet (Noark - 10kW) is a professionally engineered, all-in-one energy storage cabinet designed to deliver quality, scalability, and ease of installation for ...

Shop durable battery cabinets for safe and organized energy storage. Ideal for solar, backup, and industrial applications.

BESS - ESU50 Battery Energy Storage System Power up remote mine, construction, and industrial sites with our 50KW/75kWh, 3-phase mobile battery storage units (ESU50). These battery ...

Our BESS systems are all-weather suited, with three different cabinet variations to suit any weather

Three-phase battery energy storage cabinet for Australia power station

environment. With isolated output and online UPS for grid-connected applications, you have access ...

The system is an all-in-one design that can be paired with up to three 8.9kWh batteries for an expandable storage capacity of 26.7kWh.

The SkyBox Plus Hybrid Series 12kW is an advanced Energy Storage System ...

Explore APS Power's innovative range of battery stations and storage systems delivering efficient energy storage & management. View our range & enquire now.

The SkyBox Plus Hybrid Series 12kW is an advanced Energy Storage System suitable for On & Off Grid applications. It features a Deye SUN-12K-SG04LP3-AU Three Phase Hybrid Inverter & comes with a ...

Melbourne, 19 June 2025 - GivEnergy, a global leader in smart energy storage solutions, proudly announces the official launch of the GivEnergy Humber and Trent Collection in Australia. This line of ...

Standard or custom designed racks, cabinets and cubicles to store your batteries conveniently, safely and securely. Australian made.

SolarEdge 3-Phase Home Battery The SolarEdge 3-Phase Home Battery, is modular and stackable - adaptable to scale with your energy needs, helping to lower your bills while delivering seamless ...
