-----

From the caverns of Teesside and the reservoirs of Scotland to futuristic cryogenic tanks near Manchester, the UK is assembling a flexible, secure and low-carbon energy storage landscape.

The research by UK independent power producer Root-Power identifies 173 BESS projects, with a combined capacity of 7.6GW, likely to benefit from changes designed to accelerate the UK's transition to ...

Energy storage will be an important component of future energy systems. The aim of this roadmap is to assess its role in the UK's transition to net-zero, and to identify the contribution of research and innovation to ...

In this blog, we'll explore the top 7 battery energy storage system projects in the UK for 2025. We'll look at each project's capacity, project cost, current status, and how it supports the broader shift to clean energy.

**Key Findings** The Energy Innovation Needs Assessments (EINAs) have been developed and updated to identify key innovation needs across the UK's energy system, to provide an evidence base for the prioritisation of ...

A new era for renewable power and energy security begins today (Tuesday 8 April) as Ofgem launches a new cap and floor investment support scheme, unlocking billions in funding to build major Long...

The recent development of the UK's energy storage industry has drawn increasing attention from overseas practitioners, achieving significant progress in recent years. According to Wood Mackenzie, the UK ...

This post investigates the state of the UK battery storage pipeline, year-to-date figures and an insight into the appetite to develop over time. Battery storage is essential for providing the security and ...

With the current UK government promoting schemes to help the rollout of energy storage in the coming years, the future of BESS in the UK remains an exciting sector with many opportunities for various ...

# UK Energy Storage System Development

Several projects are currently under development and with some expected to be operational by 2030, and the introduction of an investment support scheme will help deliver them.
