What are the best solar panel brands in the UK?

Efficiency, warranty, and long-term reliability all matter, especially in the UK where cloudy days are common. The best solar panel brands in the UK this year include trusted names like LONGI, AIKO, JA Solar, SunPower, REC, and Qcells, offering a balance of performance, durability, and value. Each brand brings something different to the table.

Are mid solar panels a good choice?

Provided with a 2 year manufacturer product warranty and 25 year solar cell performance warranty, our MID range of solar panels, both in polycrystalline (JA solar cells) and monocrystalline (SolarWorld solar cells), are reliable, durable and aesthetically pleasing. Look for the 'MID-' product code to know it's from MIDsummer.

What are the different types of solar panels in the UK?

The two most common options for solar panels in the UK are monocrystalline and polycrystalline. Monocrystalline panels are known for their high efficiency, converting between 15% and 20% of the sun's energy into usable power. They are also more space-efficient, producing more energy per unit area than polycrystalline panels.

Are there solar panels based in the UK?

Although there are currently no large-scale solar panel manufacturers based in the UK, the panels in this guide are those most commonly specified by UK installers and best suited to British homes and weather conditions.
