What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

Are foldable containers a good idea?

Yes. It's that simple. It's true, all the big shipping lines and shippers have seen the full potential of our foldable containers. Cutting out inefficiency in the supply chain and hitting corporate sustainability goals as well. It's time for you to take responsibility.

Can a foldable container save CO<sub>2</sub>?

With a foldable container that saves up to 37% in costs and CO<sub>2</sub>. We are calling all shippers and shipping lines to take responsibility and start saving CO<sub>2</sub> with 4FOLD now. Without action the shipping industry will account for 10% of the global CO<sub>2</sub> emissions in 2050. This is much higher than the CO<sub>2</sub> target under the Paris agreement.

Is 4fold a sustainable supply chain innovation project?

Say 'yes' to the 4FOLD movement and contact us. Ready when you are! The project leading to this application has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 711257. Finally, real sustainable supply chain innovation.
